January 2014 Agriculture Newsletter

This is the first of a new venture in agriculture newsletter for our counties. This year, you will be receiving a newsletter each month. In the odd months the newsletter will be my responsibility and in the even months the newsletter will be the responsibility of Sarah Mills-Lloyd, new Dairy/Livestock Agent in Oconto County. She'll have a formal introduction in February, for those whom she has not yet met.

This newsletter is short on news and long on events notices - as it is definitely meeting season. We hope that there is something here for most operations - whatever your production focus may be.

Scott Reuss

Remember that you can find all this information and more detailed information on our websites, at either <http://marinette.uwex.edu> or <http://oconto.uwex.edu>

PRIVATE PESTICIDE APPLICATOR TRAINING

Florence, Marinette and Oconto Counties

You have two options to become certified or recertified as a private pesticide applicator. The first is to attend one of the private pesticide applicator training programs conducted by UW-Extension and then satisfactorily complete the evaluation at the end of that session. The second is to study the materials on your own and arrange to take the test in either Marinette or Florence. Either method has a \$40 fee which covers the five years of the license period.

A minimum score of 50 percent must be achieved on the evaluation administered at the end of the training. **Those choosing the test only option must score 70 percent.** The test is open book and you are allowed 2 hours, with retakes (if necessary) at no extra cost.

There are three training & test sessions which will be held in our immediate area in 2014:

Friday, January 10 Oconto Falls Public Library

Wednesday, January 29 Pound Town Hall

Tuesday, February 25 Oc. Falls Public Library

Training sessions will begin at 10 a.m. Most participants are done around 2:30 to 3p.m.

-Is the Private Applicator Training the right category for me??

If you answer **yes** to any of the questions below, you should become certified in the correct Commercial Pesticide Applicator category call Scott Reuss at the Marinette office, 715-732-7510 to find out the logistics of that process;

- Do you custom spray on more than 500 acres OR for more than 3 other producers?
- Do you custom bale and apply propionic acid on more than 500 baled acres?
- Do you apply restricted-use pesticides to ANY of your own non cropland acreage?

To sign up for one of the sessions or to have the materials sent to you for self-study (Write in self-study somewhere below.) purposes, return the form below with your check for \$40. If you have questions not answered here regarding the training or the difference between private and commercial applicator certification, contact Scott Reuss, Marinette County Agricultural Agent, 715-732-7510 or toll-free at 1-877-884-4480.

Sponsored by:

Wisconsin Corn Growers Association
Wisconsin Corn Promotion Board
University of Wisconsin-Extension

December 2013

Hello Wisconsin Corn Producers:

Profitable corn production is extremely important to Wisconsin agriculture. Every year, Wisconsin producers plant nearly 4 million acres of corn. Grain is harvested from 3 million acres and worth over \$1.7 billion, while about 1 million acres worth \$0.7 billion is harvested for corn silage to support our dairy industry.

Farmers today face fluctuating prices and rising production costs. They must be well informed about new technologies to maximize yield and profitability.

The Wisconsin Corn Conferences are designed to be an in-depth learning experience. They will provide technical insight, practical advice and interaction with university and industry experts and fellow growers.

Those attending will learn about:

- The 2014 marketing outlook
- Maximizing corn yields AND profitability
- Getting more out of your fertilizer dollar
- Performance of new hybrid technologies
- Producer tips for successful corn production
- The importance of crop rotation
- Land rents

Invite a neighbor to join you. We encourage you to pre-register early since space is limited. Contact the County Extension Office that will be hosting the meeting you plan to attend.

Sincerely,

Joe Lauer
UW Corn Agronomist

Jack Rodenburg "retired" in 2008 after 34 years in dairy extension in Ontario Canada, where he specialized in "production systems and automation." He

was there when the first commercial robotic milking systems arrived in North America in 1999 and has worked closely with robotic milking herds, and other forms of "precision technology" for nearly 25 years. His one man consulting company, DairyLogix, has designed robotic milking barns and advised robot owners in Canada and the USA, as well as in Holland, Belgium, Sweden and Finland.

If you have further questions about dairy modernization, please contact your local UW-Extension Agriculture Agent.

Program Coordinators:

Eric Ronk, Calumet County Agriculture Agent
(920) 849-1450 or eric.ronk@ces.uwex.edu;

Sarah Mills-Lloyd, Oconto County Livestock and Dairy Agent (920) 834-6845 or sarah.millsloyd@ces.uwex.edu

Sponsored by UW-Extension Offices in the following counties:

Brown County - Calumet County
Door County - Fond du Lac County
Kewaunee County - Manitowoc County
Marinette County - Oconto County
Outagamie County - Ozaukee County-
Sheboygan County- Washington County-
Winnebago County

Directions:

One-quarter mile west of Hwy 43 on the north side of Manitowoc Road. Across from Festival Foods and Menards.

Dairy Modernization Meeting "Technology... Friend or Foe"

Thursday,
January 30, 2014
9:30 a.m.- 3:00 p.m.
The Ravine
2633 Manitowoc Rd, Green Bay

Dairy Modernization Meeting

"Technology...Friend or Foe"

Thursday, January 30, 2014

- 9:30 a.m. Registration begins
- 10:00 a.m. **"Success Factors for Robotic Milking"**
- Jack Rodenburg, DairyLogix, retired from the Ontario Ministry of Agriculture, Extension Service. In this presentation, Jack will share his "baker's dozen" principles for robotic barn design or renovation as well as practical advice for startup and day-to-day management.
- 11:00 a.m. **"Calf Barn Ventilation"**
- Dr. David Kammel, Biological Systems Engineer, UW-Extension/UW-Madison
Our engineering specialist will talk about calf barn ventilation and management including positive pressure ventilation systems in calf barn facilities.
- 11:45 a.m. **"Real Heifers... Real Herds – 2013 ICPA Report"**
- Eric Ronk, UW-Extension Calumet County Agriculture Agent
This presentation will focus on the economic costs and labor efficiencies associated with raising dairy herd replacements on Wisconsin dairy farms.
- 12:00 p.m. **Sponsor Introduction**
- 12:15 p.m. Lunch
- 1:00 p.m. **Producer Panel**
- A question and answer session with producers who currently use robotic milkers or automatic calf feeders.
- 2:00 p.m. **"Success Factors for Automatic Calf Feeding"**
- Jack Rodenburg, DairyLogix, retired from the Ontario Ministry of Agriculture, Extension Service. Group housing and automatic feeding has been the mainstream approach in Western Europe and Canada for the past 10-20 years. Jack will share what he has learned from these farmers and provide guidelines for managing these systems in big and small herds in the USA.
- 3:00 p.m. **Wrap-up & Questions**

Dairy Modernization Meeting

Please make requests for reasonable accommodations to ensure access to educational programs as early as possible preceding the event. Requests will be kept confidential.

FARMING FOR PROFIT WORKSHOP SERIES

Why attend?

- Gain new ideas and insights about fruit crop and fruit pest management .
- Get planning assistance for a new commercial fruit operation.
- Meet other fruit growers from the area.
- Learn about resources available to help you in your management efforts.
- Gain knowledge from local experienced growers—serving as in-house guest speakers.

Send the form on opposite side to:
Marinette County UW-Extension
1926 Hall Avenue
Marinette, WI 54143

OR e-mail your information to Scott Reuss
at scott.reuss@ces.uwex.edu

OR call Scott or Linda in the Marinette
UWEX office @ 715-732-7510.

Commercial Fruit Production

A workshop series to improve the profitability and success of your commercial fruit operation

Hands-on, individual attention and in-depth materials

Sponsored by

Marinette/Oconto/Florence Counties

<http://marinette.uwex.edu>

Registration fee includes:

- Six training sessions with guest experts
- Printed materials for six sessions, organized for your future reference.
- Personalized enterprise budgets for your fruit operation.

If not registering for the entire series—please register for individual sessions by the Friday prior to attended topics.

This workshop, a combination of distance learning and live presentations, is for existing producers wanting to improve their operation and beginning producers looking to start a successful commercial fruit business. For more information about the course please contact:

Scott Reuss, Agriculture Agent
715-732-7510
scott.reuss@ces.uwex.edu

Instructors:
Jason Fischbach
Dr. Brian Smith
Dean Volenberg

Scott Reuss

Mondays, January 27 - March 3

6:30 to 9:00pm

Marinette County Courthouse—Jury Assembly Room

January 27

The Basics of Commercial Fruit Production

Our first session will focus on the infrastructure, planning, and knowledge necessary before putting a single plant in the ground. As the saying goes...do it nice or do it twice.

February 3

Apples, Tart Cherries and Plums

Establishment and management of tree fruit crops with emphasis on variety selection, establishment, pruning and pest management for apples, tart cherries, and plums.

Guest Speaker: Dr. Brian Smith

February 10

Bush Fruits

This session will cover variety selection, establishment, and management of bush fruits with an emphasis on blueberries, currants, and aronia.

Guest Speaker: Jason Fischbach

February 17

Strawberries and Raspberries

Establishment and management of strawberries and raspberries.

Guest Speaker: Dr. Brian Smith

February 24

Wine and Table Grapes

Wine and table grapes are a specialized kind of fruit production. This session will introduce you to grapes and get you started.

Guest Speaker: Dean Volenberg

March 3

Markets, Labor and Enterprise Budgets

You're able to grow a nice crop. Now what? This session will cover harvest, post-harvest handling, marketing, and economics.

Cost: \$10/person per session a la carte or \$40/person for the series

An EEO/Affirmative Action employer, University of Wisconsin-Extension provides equal opportunities in employment and programming, including Title IX and ADA requirements. Requests for reasonable accommodations for disabilities or limitations should be made prior to the date of the program or activity for which it is needed. Requests will be kept confidential.

800 Eisenhower Drive, Kimberly

PROGRAM

Forages

- Alfalfa/grass growth in drought.
- Alfalfa variety trial performance in drought and predicting yield in future years.
- Management of drought stressed pastures and hay fields in spring of 2013.

Corn

- How are the new transgenic technologies working in Wisconsin?
- Predicting next year's corn hybrid performance.
- The stability of corn management recommendations in drought years.

Soybeans and Small Grains

- The Soybean and Small Grain year in review.
- SCN and Other Plant Parasitic Nematode Populations: Summary of 2012 Soil Samples.
- Prescription Soybean Seeding Rates: 1st Year Findings.

Registration Fees

\$32.00 per person will include breakfast & one packet of information

*All participants will be charged the same amount if you have breakfast or not

Additional packets will be available at the meeting for **\$18.00** apiece

Fruit Management in the Backyard

4 Wednesday evenings in January & February
6 p.m. to 8 p.m.

Oconto Falls Community Library Meeting Room

\$0 Registration Fee - Brought to you at no charge by the library and
Oconto / Marinette County UW-Extension offices.

Sessions led by Scott Reuss, UW-Extension Horticulture Agent.

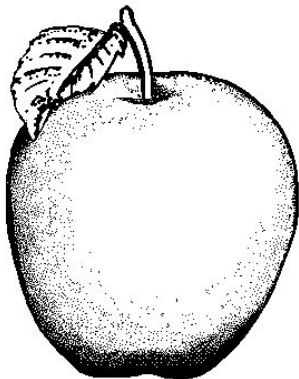

*Your county
extension office*

January 22: Raspberries & Blackberries

January 29: Apples & Pears

February 12: Grapes & Blueberries

February 19: Strawberries & Stone Fruits

Each evening's discussion will concentrate on the proper selection and management of the main species listed.

Management topics will include planting; pest management - insect, disease, weed, organic options, etc...; pruning; and all the other necessary day to day activities that lead to production of healthy, tasty, high-quality fruit straight from your backyard.

In addition to the main species, some of the 'newer' fruits that can be grown in our area will be introduced at the sessions.

Pre-registration is requested (but not required) by signing up at the library desk, calling the library at 920-846-2673 or e-mailing to scott.reuss@ces.uwex.edu

The University of Wisconsin-Extension provides affirmative action and equal opportunity in education, programming and employment. If you need any accommodations to assist in your participation of this program, please contact Scott or Linda at 715-732-7510 at least 24 hours prior to the event. All requests will be kept confidential.

Events, Deadlines, and Notes

Jan. 14-16 WI Crop Management Conference

Billed as the Midwest's premier crop management conference, three-day event held in Madison. Very good conference covering all aspects of crop production. See info at <http://wiagribusiness.org/tradeshow.php>

Jan. 16-18 Grassworks Grazing Conference

Held in Wausau this year, the annual grazing conference covers all aspects of grazing systems. See conference info at <http://grassworks.org/>

Jan. 17 Conservation Stewardship Program sign-up deadline

Contact your appropriate NRCS office for details and sign-up information for this conservation practice incentive program.

Jan. 19-21 WI Fresh Fruit & Vegetable Growers' Conference

High-powered event for anyone growing fruits and vegetables. Go to <http://waga.org/> and click on the conference link for information.

Jan. 23-24 Midwest Value-Added Ag. Conf.

Getting more for your products usually means adding value for the consumer. If you're thinking of doing some type of added value enterprise, consider attending this annual conference being held in WI Rapids. Get all info at: <http://www.rivercountryrcd.org/valad.html>

Annual CAFO Meeting

Tundra Lodge - February 6th

This is the annual update meeting for WPDES permitted farms and all the consultants that work with them. If your farm is on the verge of WPDES permit need size or you are wondering about some of the logistics of post-permit management, you may want to consider attending. This year's focus topic is nutrient management plan implementation. Get info from Scott or Sarah or on the webpages.

Feb. 6/7 WI Corn/Soy Conference

Held in WI Dells, this two-day event covers all things about corn & soybean production in WI. Go to <https://www.cornsoyexpo.org/> for information or to register.

Feb. 10 NE WI Grain Crops Clinic

Brochure didn't make it for this newsletter, but this event will be held in two locations (Brillion & Seymour) on the same day with the same topics. Brochure will be in Feb. Newsletter or online.

Feb. 20 Nutrient Mgmt. For 2014 crops

See next newsletter for full details, but this day's discussion will be at the Lena Town Hall and focus on practical, income-focused nutrient management for 2014 crops.

Feb. 24 Value-added grant deadline

National program designed to help producers establish new product lines and a few other focus points. Contact Scott for contact information or assistance.

Feb. 28 Winning the Game Pre-Harvest

The companion to the Post-Harvest version being held on Jan. 23, but focusing on time lines, trends, and patterns that should affect your pre-harvest marketing plan and its implementation. Lena T.H.

March 14-15 WI Ag Women's Summit

Annual summit that features multiple topics from policy to social networking to animal management and many others. Go to <http://wfbf.com/> and click on programs for the brochure and information.

Master Gardener Volunteer Training

If you or anyone you know are interested in people and plants, you may want to consider becoming a Master Gardener Volunteer. UW-Extension is offering the MGVT Training in Marinette on Thursday evenings starting February 27. Brochures are available at <http://marinette.uwex.edu> or by contacting Scott Reuss.

Spring Garden Conferences

The annual Northern Lights Master Gardener Volunteers' Spring Garden Conference will be held on Saturday, March 22 at UW-Marinette. The brochure will be available at <http://marinette.uwex.edu> in early February or call Linda at the Marinette office.

The annual North Stars Garden Conference will be held in Florence on Saturday, April 26. Contact Kathy in the Florence County UWEX office, 715-528-4480.

Post-Harvest Grain Marketing: Do You Have an Exit Strategy?

Starting your post-harvest grain marketing plan can be a challenge. But once you've started, how do you finish? In this session, you will learn key questions to ask to better size up the market after harvest. Most importantly, you'll get to see how a simple plan can be used and how it can be modified within predetermined boundaries that give you both flexibility and discipline.

Oconto & Marinette County University of Wisconsin Extension invite you to this practical and highly regarded workshop: **Winning the Game: Launch and Land Your Post-Harvest Marketing Plan.** Developed by Univ. of Minnesota grain marketing specialist Ed Usset, this workshop covers topics including:

- What is a "carry" and why it's important
- Post-harvest exit strategies
- Writing your own post-harvest marketing plan
- A chance to practice exit strategies with a fast-paced and fun market simulation

Winning the Game: Launch and Land Your Post-Harvest Marketing Plan will be held:

Date: Thursday, January 23
Time: 9:45 a.m. registration, program runs from 10 a.m. to 3 p.m.
Location: Lena Town Hall – Intersection of Goatsville & Jagiello
Registration Contact: call Scott or Linda at 715-732-7510, or e-mail your information to Scott at scott.reuss@ces.uwex.edu
Registration Fee: \$10 which includes lunch and all workshop materials

Space is limited, so call today and register to attend this valuable workshop.

*Your county
extension office*

An EEO/Affirmative Action employer, University of WI-Extension provides equal opportunities in employment and programming, including title IX and ADA requirements.
