## Welcome to the 4-H Goat Project

The 4-H Goat Project provides youth a fun and hands-on learning experience that develops life skills, as well as teaches valuable information about properly caring for their animals.

Youth participating in livestock projects learn about general care, nutrition, housing, and health of their animals through workshops and activities such as project meetings, Meat Animal Quality Assurance training, and animal judging.

Youth also have the opportunity to develop responsibility, decision-making, nurturing, and communication skills through active participation in the Goat Project.

## Signing Up for a 4-H Goat Project

Youth in the Goat Project enroll in one or more of the following projects. To enroll in 4-H, visit the 4-H On-Line site at <https://www.4honline.com/> If you need help with the online enrollment, check with your 4-H club advisor or call the Extension Office for guidance (920-834-6845).

- Dairy Goats 1 (Grades 3 -5)
- Dairy Goats 2 (Grades 6 – 8)
- Dairy Goats 3 (Grades 9-12)
- Meat Goats 1 (Grades 3 -4)
- Meat Goats 2 (Grades 5-8)
- Meat Goats 3 (Grades 9-12)

*NOTE: Animal Project sign-up is done by grade, not skill level.*

## Best Place to Get Started?

Plan on attending Fall Project Kickoff (see calendar) to meet your project leader and pick up a January Thaw project challenge. You can access project challenges anytime at <http://oconto.uwex.edu/4-h-youth-development/4-h-projects/project-days/>

## Goat Leaders

Please feel free to contact your county-wide 4-H goat leader for more information on your project.

Carol Nelson

<b>Summer Goat Clinic</b>	TBA	Oconto County Fairgrounds Gillett
<b>Oconto County Fair</b>	August 18-21, 2016	Oconto County Fairgrounds Gillett

# 4-H Goat Project

## Getting Started with Goats

2015

### *Hint:*

*For a quick start in the Goat Project, attend Fall Project Kickoff, January Thaw, and Spring Fling.*

### PLANNING

- Determine your goal.
- Check out the 4-H project books on goats, and the other resources listed above.
- Plan your facilities.
- Determine the best type of feed for your goal, and plan on providing clean, adequate water each day.
- What breed of goat best suits your goals and your experience level?  
Your project leader can give you great advice!

### Disease Prevention

Biosecurity is a set of practices designed to reduce the risk of spreading disease from sick animals to healthy ones. We recommend adding these practices to your routine:

- Restrict access to your property.
- Keep a designated pair of shoes to wear around your animals, wash clothing after caring for your animals, and use disinfectants correctly.
- Clean and disinfect equipment especially after use at fairs or public locations.
- Keep new animals separate from your herd for 30 days; quarantine returning animals from the rest of your herd after visiting a fair, exhibition or other event.
- Do not share equipment or supplies with others, but if you must, disinfect it first.
- Wash hands before and after handling animals.
- Vaccinate animals regularly to increase protective immunity.
- Accurately identify and maintain current records on all your animals.
- Look for unusual signs in your herd, such as odd behavior; sudden and unexplained deaths; large numbers of sick animals; blisters around an animal's nose, teats, mouth or hooves; difficulty rising and walking; partial to complete drop in milk production; or a large number of dead insects, rodents or wildlife. Contact your veterinarian immediately if any of these occur.

## *Enrolling in 4-H and Signing up for the Oconto County Fair -- - It's Two Different Things!*

When you enroll in 4-H at **4HOnline.com**, you are signing up to be a part of Oconto County 4-H. As part of the enrollment process, most youth choose one or more 4-H PROJECTS. You can do that right on 4-H online, and you can go back and do it now if you didn't before.

If you want to put an EXHIBIT in at the Oconto County Fair, you must be signed up in that corresponding 4-H project (through **4Honline.com**). This project signup must be completed by **APRIL 30<sup>TH</sup>**.

We share our list of 4-H youth who have signed up for projects with the Oconto County Fair. The Fair is a separate entity and has its own guidelines for exhibitors.

Each youth who is signed up in a PROJECT through 4-H, will receive a FAIR ENTRY FORM. Those Fair Entry Forms will be delivered by a Fair representative to club advisors at the 4-H Leaders Association Meeting on Wednesday, May 14<sup>th</sup>.

To sign up to take an EXHIBIT to the fair, you must fill out the Fair Entry Form, using the Oconto County Fair premium book. The Fair Entry Forms are due to Stacie Pienta by the fourth Monday in June.

## *If you are planning on showing your goat at the Oconto County Fair:*

- Before April 30<sup>th</sup> -- Be sure you are signed up in the Goat project through 4-H Online.
- Make plans to attend one of the many Meat Animal Quality Assurance workshops in the county. This is required of all exhibitors to be eligible to sell at the Sale of Champions.
- July: Fair Entries due. You will get them from your 4-H Club Advisor.  
  
Look over the Premium Book for the Fair carefully. Ask your project leader or 4-H Club Advisor for help to make sure you are entering in the correct category.
- August: Watch the Friday Notes for the announcement about the Fair.
- August: Get your show box and your white show clothes ready for the Goat Show.
- Check the Fair Premium Book to find out the date and time of Goat Check-in Day at the Fair.
- 

→ Youth who are selected to sell their animals in the Sale of Champions at the Oconto County Fair must have 3 documented Educational Points, one of which must be MAQA training, and one must be species specific. There are plenty of opportunities to get those points at the 4-H project days (either as a participant or as a youth leader), summer workshops, and other events throughout the county and state.
