*Practice makes perfect!*

Learn how to write the Alphabet all over but using a special pen that make the lines look thin and thick all at the same time.

Calligraphy is the decorative art of writing; most people don't know that calligraphy is based on simple shapes. Once you learn the shapes it's easy, all you need to do is practice that shape to make it consistent.

## **Challenge:**

Find a short saying, poem or a shorten song and using the proper techniques learn how to write the saying in "Roman" (Book hand) Lettering.
